

AKHONA MNGQIBISA

SOFTWARE DEVELOPER

Address: Cape Town, Western Cape | **Mobile:** +27 62 198 2193 | **Email:** bakhonamngqibisa@gmail.com

PROFESSIONAL SUMMARY

Innovative and meticulous Full Stack Software Developer with 5 years of experience designing, developing, and maintaining enterprise-grade web applications. Skilled in Java, Spring Boot, RESTful APIs, Angular, and microservices architecture. Adept at building scalable back-end systems and crafting modern, responsive user interfaces. Enthusiastic about delivering high-quality software solutions through Agile methodologies and clean coding practices.

PROFESSIONAL EXPERIENCE

Software Developer, PathCare

Feb 2023 – Current

- Developed and deployed scalable microservices and RESTful APIs using Java, Spring Boot, and MSSQL.
- Migrated legacy UI components to Angular & Tailwind, improving usability and reducing bugs.
- Designed and improved database performance through efficient SQL queries, stored procedures, and triggers.
- Collaborated across Agile teams to define requirements, track progress, and ensure on-time delivery.
- Conducted code reviews and guided developers to maintain clean coding standards and improve code quality.
- Designed middleware that automated third-party data synchronization, saving 30% of manual effort.

Full-Stack Developer, WorkPool

Jul 2021 – Jan 2023

- Supported end-to-end software development, from design to deployment.
- Developed and maintained Java-based web applications using JSP, JSF, HTML5, CSS3, JavaScript, and MySQL.
- Developed RESTful APIs and integrated external tools to improve automation and interoperability.
- Enhanced site performance and scalability with 100+ features, reusable components, and optimized code.
- Created and deployed Java EAR files for testing and production environments, ensuring stable feature releases.
- Collaborated with clients and internal teams, providing technical consultation, progress updates, and user support.

Full-Stack Developer Intern, JumpCO Software Labs

Oct 2019 – Sept 2020

- Translated complex specifications into efficient, maintainable code through solid research and logical analysis.
- Built backend logic with Java, Spring, and web services for enterprise systems.
- Performed over 200-unit tests to ensure functionality, reliability, and compliance with design specifications.
- Designed and maintained SQL databases, handling data storage, retrieval, and optimization.
- Collaborated with teams to enhance features, code quality, and backend solutions.

EDUCATION

NQF5 Systems Development

JumpCO Software Labs

Sep 2018 – Aug 2019

Diploma in ICT Application Development

Cape Peninsula University of Technology

Jan 2019 – Nov 2021

Advanced Diploma in ICT Application Development

Cape Peninsula University of Technology

Jan 2024 – Nov 2024

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Node.js
- **Backend:** Spring Boot, Express.js, Microservices, RESTful APIs, Maven, Gradle
- **Frontend:** HTML5, CSS3, JavaScript, Angular, Bootstrap, Tailwind, jQuery, Responsive Design
- **Databases:** MSSQL, MySQL, MongoDB (schema design, query optimization, stored procedures)
- **Testing & QA:** Unit Testing, Junit, Jest, TDD, CI/CD (Jenkins, GitHub Actions)
- **Tools & Concepts:** Git, Docker (basic), Agile/Scrum, OOP, RESTful API Design, Figma

SOFT SKILLS

- Collaborative personality
- Interpersonal community
- Systematic
- Creative Spirit
- Resourceful
